What's New In?

This is a tool designed to integrate your music and multimedia collections and playlists from your PC to your MP3 player.

Features:

- ☑ You can upload as many MP3 files as you like to your MP3 Player.
- ☑ Supports different methods of synchronization including:
 - ☑ Content is uploaded and downloaded automatically whenever your MP3 Player is plugged into your PC, or the USB cord is reconnected to your PC.
 - ☑ You can configure the PC and MP3 Player manually to automatically synchronize your files, and then save the settings to your computer.
 - ☑ You can select specific folders on your PC for synchronization. This means you can make your MP3 Player play files from folders in your My Computer or My Music, or you can play files from USB drives.
 - ☑ You can make your MP3 Player play files from particular folders on your PC, such as the My Computer, My Music, or My Videos.
 - ☑ You can synchronize playlists between your MP3 Player and your PC.
 - ☑ You can make your MP3 Player play files from USB drives, folders on your PC, or your PC's My Computer or My Music, folders.
 - ☑ You can use the Smart Radio feature to find the stations that you like most and automatically play songs from those stations on your MP3 Player.
 - ☑ You can define the play order for your MP3 files. You can even create playlists.
 - ☑ You can import playlists from various sources and synchronize them with your MP3 Player.
 - ☑ You can create playlists with tracks from your MP3 files, and play them from your PC or the MP3 Player.
 - ☑ You can save the playlists to your MP3 Player or to the MP3 Player's memory.
 - ☑ You can edit the information in your playlists, and then synchronize them to the MP3 Player.
 - ☑ You can have playlists stored on the MP3 Player or on your PC.
 - ☑ You can select specific tracks from playlists to synchronize.
 - ☑ You can see information for the MP3 files in the playlists, such as song titles and artist names.
 - ☑ You can synchronize playlists to your PC and then transfer them to your MP3 Player.
 - ☑ You can add files to playlists.
 - ☑ You can play the playlists stored on your PC or the MP3 Player.
 - ☑ You can select your MP3 Player as a default playlist and then automatically play the playlists on the MP3 Player.
 - ☑ You
